SUMMARY

Coaching is no longer a luxury — it is a critical driver of business success. From effectively managing teams to growing and retaining talent, today's leaders need a robust understanding of how coaching can broaden and build the strengths of team members, shape difficult conversations and achieve measurable results.

This entertaining and evidence-based talk will teach leaders at all levels the art and science of performance coaching. Master the mindsets and methods that create high-trust, authentic relationships between leaders and team members. Learn proven strategies that foster empathy in the workplace. Create healthier and happier workplace dynamics by leading with greater intention and attention.

From sharing critical feedback to building trust and better teamwork, this talk offers deep insights to help emerging and experienced leaders hone their **coach approach** and tap the strengths of their teams.

IMPACT

- **LEARN** how to instill a coaching mindset throughout your organization.
- **MASTER** proven techniques that foster collaboration, communication and clarity.
- **DEVELOP** high-impact strategies for delivering feedback that's developmental, not judgmental.

LEARNING TOGETHER **IN REAL TIME.**

ABOUT JOE

As the managing director of Semaca Partners, Joe Hirsch helps leaders apply behavioral science to improve the way they listen, lead and learn. He's a TEDx and keynote speaker, a columnist for Inc., and the author of "The Feedback Fix," which has been praised by Fortune 500 executives, NFL coaches and educational reformers for its forward-looking view of human performance. Joe's work and research has been featured in Forbes, Harvard Business Review, CNBC, Educational Leadership and other major outlets.

When he's not helping others communicate with impact, he's probably doing something outside with his wife and four boys.
